**Research Areas at IN2UB**

1. **Modeling and simulation of systems and properties of matter in the nanoscale (NModels)**
2. **Nanobiotechnology (NBioTech)**
3. **Nanopharmacotherapy (NPharma)**
4. **Nanomagnetism, nanoelectronics and nanophotonics (NElectroMag)**
5. **Nanomaterials (NMaterials)**
6. **Nanoeubiotics: production, storage, and environment (NEnergy)**

Offering an exceptional working environment to those interested in our research, IN2UB invites you to visit our web page (www.ub.edu/in2ub/) to obtain information about currently open positions.
