Naturejobs' Focus on Microbiology offers you a unique opportunity to present your job, employer marketing, event or announcement in front of readers interested in the microbiology field.

This issue of Nature will have a bonus distribution at the American Society for Microbiology 108th General Meeting in Boston, MA, placing your advertisement in front of the right people.

Microbiology is moving into a new era that focuses less on specific organisms and more on the processes and mechanisms that link them. Nature Publishing Group is dedicated to reporting cutting edge research in the microbiology industry, with key papers published in *Nature* as well as targeted publications such as *Nature Reviews Microbiology*.

The Focus on Microbiology will be a valuable reference for readers interested in the subject. Whether you are recruiting, creating awareness or positioning your organization, this feature will deliver targeted impact. The Focus is featured at the beginning of the *Naturejobs* section.
