microRNAs

EDITORIAL

S1 The microRevolution

PERSPECTIVE

S2 Approaches to microRNA discovery
Eugene Berezikov, Edwin Cuppen & Ronald H A Plasterk

S8 microRNA target predictions in animals
Nikolaus Rajewsky

S14 Strategies to determine the biological function of microRNAs
Jan Krützfeldt, Matthew N Poy & Markus Stoffel

S20 Canalization of development by microRNAs
Eran Hornstein & Noam Shomron

S25 Viruses and microRNAs
Bryan R Cullen

REVIEW

S31 Functions of microRNAs and related small RNAs in plants
Allison C Mallory & Hervé Vaucheret
