Since the publication of the above paper, the authors have identified an error in the abstract, where an incorrect *P*-value was given. The corrected sentence is given here:

At week 68, there was net weight loss (SP $-2.9 \pm 3.6\%$, HP $-4.1 \pm 5.8\%$; $P < 0.44$) due entirely to fat loss ($P < 0.001$) with no diet effect.
