ERRATUM

Global analysis of differential gene expression after transformation with the v-H-ras oncogene in a murine tumor model

Reto Brem, Ulrich Certa, Martin Neeb, Asha PK Nair and Christoph Moroni

Oncogene (2001) **20**, 2854–2858.

Due to a typesetting error one of the authors' corrections to the proof of the above paper was not made. The first paragraph on page 2856 should read:

From three IL-3 autocrine tumor lines and the parental cell line PB-3c fluorescently labeled cRNA was prepared and hybridized to oligonucleotide arrays. Integrity of the RNA samples was confirmed by RT-PCR amplification of IL-3 mRNA (Figure 1b), and in a Northern blot experiment confirming differential expression of 1–8d (data not shown).
