Correction to: *European Journal of Clinical Nutrition* (2004) **58**, 966–971. doi:10.1038/sj.ejcn.1601922

Following the publication of the above paper, the authors have identified an error in the abstract and would like to apologize for any confusion this might have caused. A statement of the authors is reproduced below:

The abstract of the above article incorrectly stated that the data were gathered on women enrolled in a weight loss program. In actuality, the women had been recruited for a

‘wellness program’. They were eventually randomized into two groups: one a weight loss intervention, and the other a ‘health at every size’ intervention intended to encourage healthy lifestyle behaviors without a focus on weight.

This mistake does not affect the data or outcomes presented in the paper, but does mischaracterise our future work. We apologize for the error.
