

Pathology of the Skin, Birmingham; Mr. P. Vig, Institute of Dental Surgery, Eastman Dental Hospital, London, to the Department of Orthodontics, Institute of Dental Surgery, Eastman Dental Hospital, London; Dr. J. L. Wilkins, registrar, St. Mary's Hospital, London, to the Paediatric Research Unit, Guy's Hospital Medical School, London.

Medical Research Council Travelling Fellowships

These fellowships replace the Rockefeller travelling fellowships. Dr. M. C. Brain, senior registrar, Department of Medicine, Hammersmith Hospital, London, to the Haematology Division, Johns Hopkins Hospital, Baltimore, Maryland; Dr. C. D. Holdsworth, registrar, Medical Unit, Royal Free Hospital, London, to the Department of Physiology, Harvard Medical School, Boston, Massachusetts; Dr. A. H. G. Love, lecturer in medicine, Queen's University of Belfast, to the United States Naval Medical Research Unit, Taipei, Taiwan, and the Gastroenterology Unit, Massachusetts Memorial Hospital, Boston, Massachusetts; Dr. H. Newey, J. J. Graves Medical Research Fellow, Department of Physiology, University of Sheffield, to the Biophysical Laboratory, University of Harvard, Boston, Massachusetts; Dr. V. Parsons, senior registrar in general medicine, Royal Sussex Hospital, Brighton, to the Arthritis Unit, Massachusetts General Hospital, Boston, Massachusetts; Dr. T. H. Williams, lecturer in experimental neurology, Department of Anatomy, University of Manchester, to the Department of Anatomy, Harvard Medical School, Boston, Massachusetts.

Sir Henry Wellcome Travelling Fellowships

Miss M. R. Daniel, cell physiologist, Strangeways Research Laboratory, Cambridge, to the Division of Histology, Ontario Veterinary College, Guelph, Canada, and the Department of Microbiology, the University of Michigan, Ann Arbor, Michigan; Mr. R. P. Gould, senior lecturer in histology, Middlesex Hospital Medical School, London, to the Department of Neuroanatomy, Harvard Medical School, Boston, Massachusetts; Mr. N. Maclean, assistant lecturer, Department of Zoology, University of Edinburgh, to the Rockefeller Institute, New York; Dr. G. Meachim, lecturer in pathology, University of Sheffield, to the Department of Animal Biology, School of Veterinary Medicine, University of Pennsylvania, Philadelphia; Mr. J. L. Provan, senior lecturer, Surgical Unit, University College Hospital Medical School, London, to the Cardiovascular Laboratories, Massachusetts General Hospital, Boston, Massachusetts.

U.S. Public Health Service Fellowships

Dr. M. H. Evans, senior lecturer, Sherrington School of Physiology, St. Thomas's Hospital Medical School, London, to the Department of Physiology, University of Utah, Salt Lake City; Dr. N. L. Jones, senior registrar in respiratory research and senior tutor, Postgraduate Medical School, London, and honorary senior registrar, Hammersmith Hospital, London, to the Cardiovascular Research Institute, University of California Medical Center, San Francisco, California; Dr. J. R. Ledsome, lecturer in physiology, University of Leeds, to the Cardiovascular Research Institute, University of California Medical Center, San Francisco, California; Mr. J. H. P. Main, lecturer in oral pathology, University of Edinburgh, to the National Institute of Dental Research, Bethesda, Maryland.

Alexander Pigott Wernher Memorial Trust Fellowships in Ophthalmology and Otolaryngology

Dr. A. J. Bron, junior registrar in ophthalmology, Guy's Hospital, London, to the Wilmer Institute, Johns Hopkins Hospital, Baltimore, Maryland; Dr. P. P. Hakim,

registrar, Dudley Road Hospital, Birmingham, to King's College Hospital and the National Hospital for Nervous Diseases, London.

The Royal Society:

Research Fellowships

THE Committee representing the Royal Society and the Armourers and Brasiers' Company has appointed Dr. G. A. Chadwick, of the Department of Metallurgy, University of Cambridge, to the Armourers and Brasiers' Company research fellowship in metallurgy to work on the effect of the interfacial energy term on the microstructure of eutectic alloys at the Department of Metallurgy, Cambridge. The Committee representing the Royal Society and the University of Sheffield has appointed Dr. R. N. Dixon, of the Department of Chemistry, University of Sheffield, to the Sorby research fellowship to continue experimental and theoretical investigations of the electronic spectra of small molecules at the Department of Chemistry, Sheffield.

Announcements

PROF. A. R. J. P. UBBELOHDE, professor of thermodynamics and head of the Department of Chemical Engineering and Chemical Technology in the Imperial College of Science and Technology, London, and director of the Salters' Institute of Industrial Chemistry, has been elected a corresponding member of the Göttingen Akademie der Wissenschaften.

IN recognition of the centenary of the Cleveland Institution of Engineers, Middlesbrough, which is an Affiliated Local Society of the Iron and Steel Institute, the Institution has been awarded the Medal of the Iron and Steel Institute. This Medal, which was established in 1960, is presented on special occasions to Societies which have, in the opinion of the Council of the Institute, rendered exceptional service to science or industry over a long period. The Medal, which is of gold, has previously been awarded to the Royal Society (1960), the Verein Deutscher Eisenhüttenleute, Düsseldorf, Germany (1960), and Jernkontoret, Stockholm, Sweden (1962).

THE Arthur Stanley Eddington Memorial Lecture for 1964 on "I believe . . ." will be delivered by Dame Kathleen Lonsdale in Cambridge on November 6. Further information can be obtained from the Eddington Memorial Trust, Sedgwick Museum, Cambridge.

A SYMPOSIUM on "Space Environment Simulators", sponsored jointly by the British Interplanetary Society and the Society of Environmental Engineers, will be held at Northampton College of Advanced Technology on November 17. Further information can be obtained from the British Interplanetary Society, 12 Bessborough Gardens, London, S.W.1.

THE first inaugural presidential address of the Institute of Mathematics and its Applications will be delivered by Prof. M. J. Lighthill (Imperial College of Science and Technology, University of London) at a meeting of the Institute to be held at King's College London on November 25. Further information can be obtained from the Institute of Mathematics and its Applications, 29 Gordon Square, London, W.C.1.

CORRIGENDUM. It is regretted that due to a delay in receiving proofs the following corrections could not be made to the communication entitled "Instability of Temperature Ice-sheets owing to a Feed-back Mechanism" by M. L. Liboutry (*Nature*, 203, 627; 1964): throughout the communication "temperature ice-sheets" should read "temperate ice-sheets", and also " C_0 " should be " c_0 ". Lines 33-35 of the left-hand column on p. 629 should read: ". . . In fact, it has been proved⁶ that E must be equal to 1 near the bergschrund and to δ near the front".
