

address and date of birth should be enclosed in a sealed covering letter attached to the essay and addressed to the Deputy Secretary of the British Association.

The Mathematics of Control Systems

THE second residential conference of the Institute of Mathematics and its Applications on "The Mathematics of Control Systems" will be held at Sunderland Technical College during April 3-6. The following lectures have also been arranged: "Non-linear Hydrodynamic Stability" by Prof. P. H. Roberts (Constantine Technical College, Middlesbrough, on February 21); "Reciprocity Theorems in Applied Mathematics" by Prof. G. J. Kynch (Birmingham College of Advanced Technology, on February 22); "Application of Mathematics to Problems arising in the Electrical Manufacturing Industry" by Mr. N. Kerruish (University of Leeds, on February 22); "Mathematics applied to the Large-scale Dynamics of the Atmosphere" by Mr. J. S. Sawyer (University of Strathclyde, on February 24); "Mathematics in Electrical Engineering" by Mr. N. Kerruish (Birmingham College of Advanced Technology, on March 2). Further information can be obtained from the Institute of Mathematics and its Applications, Maitland House, Warrior Square, Southend-on-Sea, Essex.

University and College News: Belfast

DR. D. J. BRADLEY, reader in physics at Royal Holloway College, London, has been appointed to the chair of physics. The following appointments have also been made: *Readerships*: Dr. R. Common (geography); Dr. M. F. Grundon (organic chemistry); Dr. A. P. Roberts (engineering mathematics); Dr. F. J. Smith (applied mathematics); *Senior Lectureships*: Dr. R. M. Hobson (physics); Dr. D. McCloy (mechanical engineering); Mr. N. Stephens (geography); Mr. B. C. S. Wilson (archaeology).

The College of Advanced Technology, Birmingham

DR. F. M. PAGE has been appointed professor of chemistry.

London

DR. B. R. COLES, at present reader in physics at the Imperial College of Science and Technology, has been appointed to the chair of solid-state physics tenable at that College, from October 1.

Southampton

DR. I. R. BEATTIE has been appointed to the chair of inorganic chemistry. Dr. J. M. Nightingale has been

appointed to the chair of control engineering. Mr. R. A. Farrar has been appointed lecturer in mechanical engineering.

Announcements

DR. M. A. TUVE, director of the Department of Terrestrial Magnetism of the Carnegie Institution of Washington, has been appointed home secretary of the United States National Academy of Sciences, in succession to the late Dr. H. L. Dryden.

DR. L. SCHIFF, executive head of the Department of Physics at Stanford University, has been awarded the 1966 Oersted Medal by the American Association of Physics Teachers, for notable contributions to the teaching of physics.

THE address of the Plant Variety Rights Office is now Murray House, Vandon Street, London, S.W.1.

THE title of the Fruit and Vegetable Canning and Quick Freezing Research Association is now the Fruit and Vegetable Preservation Research Association.

A SYMPOSIUM on "The Place of the Chemist in Industry", organized by the Royal Institute of Chemistry, will be held at the Oxford College of Technology on March 3. Further information can be obtained from Mr. W. Sabel, Oxford College of Technology, Headington Road, Oxford.

A SYMPOSIUM on "Chemistry and Rheology of Water Soluble Gums and Colloids", arranged jointly by the Colloid and Surface Chemistry Group of the Society of Chemical Industry and the British Society of Rheology, will be held at the School of Pharmacy, University of London, on March 28. Further information can be obtained from Mr. B. Warburton, Department of Pharmaceutics, School of Pharmacy, 29-39 Brunswick Square, London, W.C.1.

A WORKING conference on inter-personal and inter-group relations entitled "Learning and Leadership", arranged by the Department of Adult Education of the University of Leicester in collaboration with the Tavistock Institute of Human Relations, will be held in the University of Leicester during March 25-April 7. Further information can be obtained from Miss D. J. Bostock, Tavistock Institute of Human Relations, 3 Devonshire Street, London, W.1.

CORRIGENDUM. In the article entitled "Isotopic Ages of Minerals from the Pre-Cambrian Complex of the Malverns", by Dr. R. St. J. Lambert and D. C. Rex (*Nature*, 209, 605; 1966), the second sentence of paragraph three, p. 606, line 14, should read "A *Callavia* fauna . . .".

THE NIGHT SKY IN MARCH

All times are in Universal Time

MOON	CONJUNCTIONS WITH THE MOON
New Moon 22d 05h	Venus 17d 22h, 9° N.
Full Moon 7d 02h	Mars — —
	Jupiter { 1d 08h, 2° S.
	{ 28d 19h, 3° S.
	Saturn — —

PLANETS

Name	Time of rising (R) and setting (S) during the month				Mag.	D_g (10 ⁶ miles)	Zodiacal position
	R/S	Beginning	Middle	End			
Mercury	S	19h 20m	19h 05m	Unfavourable	+1.9	64	Pisces
Venus	R	4h 45m	4h 25m	4h 10m	-4.2	47	Aquarius
Mars	—	Unfavourable for observation		—	—	221	Pisces
Jupiter	S	3h 05m	2h 10m	1h 20m	-1.8	472	Taurus
Saturn	—	Unfavourable for observation		—	—	987	Pisces

D_g is the distance of planet from the Earth on the 15th of the month

OCCULTATIONS OF STARS BRIGHTER THAN MAGNITUDE +6 AT GREENWICH

Star	R/D	Time	Mag.
α Lib	D	11d 00h 23.0m	+2.9
δ Lib	R	11d 01h 06.4m	+5.3
α Lib	R	11d 01h 12.8m	+2.9
τ Tau	D	27d 21h 06.5m	+4.3

(D, disappearance; R, reappearance)

OTHER PHENOMENA

7d 02h, Uranus 4° S. of Moon
