

## CORRIGENDUM

# Cytokine signals propagate through the brain

L Vitkovic, JP Konsman, J Bockaert, R Dantzer, V Homburger and C Jacque. *Mol Psychiatry* 2000; 5: 604–615

The authors would like to correct the following phrase on page 607, second column, lines 6–7 from bottom:

'However, IL-1 $\beta$  concomitantly appears in the basolateral amygdala, where neuronal IL-1 receptors are present' should read:

'NF- $\kappa$ B concomitantly appears in the basolateral amygdala, where neuronal IL-1 receptors are present'.

The authors apologize for any inconvenience caused by this error.
