Science Factory	Enzymology database, bioinformatics platform for sequence, expression and structural data	Cologne, Germany	www.science-factory.com
Spotfire	Analytical and statistical software for drug discovery	Somerville, Massachusetts	www.spotfire.com
SPSS	Statistical and data-mining software	Chicago, Illinois	www.spss.com
Tripos	Drug discovery software, LeadQuest compound library, software consulting	St Louis, Missouri	www.tripos.com
Services			
Affibody	Affibody binding proteins	Bromma, Sweden	www.affibody.com
Affitech	Human antibody discovery <i>in vitro</i> from libraries and patients	Oslo, Norway	www.affitech.com
Atugen	Discovery and validation of <i>in vitro</i> and <i>in vivo</i> therapeutic targets	Berlin, Germany	www.atugen.com
BioChip Technologies	Pharm-O-Kin Screen customized genotyping service	Freiburg im Breisgau, Germany	www.genescan.com
BioFocus	Compound design and synthesis, molecular modelling, quantitative structure—	Sittingbourne, UK	www.biofocus.com
DIOI OOUS	activity relationships, assay development, high-throughput screening	oningbourne, or	WWW.bioloous.com
Chemical Diversity Labs	Molecular libraries for 'hit' identification and 'hit-to-lead' structure-activity relationships, lead optimization and scale-up	San Diego, California	www.chemdiv.com
Cytomyx	Gel analysis, mass spectroscopy and amino-terminal sequencing, recombinant protein expression, expression profiling, cell-line production	Cambridge, UK	www.cytomyx.com
EUGENEX Biotechnologies	Development of test cell lines	Taegerwilen, Switzerland	www.eugenex.com
Evotec OAI	Compound libraries, assay development, high-throughput screening, lead optimization and medicinal chemistry	Hamburg, Germany	www.evotecoai.com
Graffinity Pharmaceuticals	Chemical microarrays and label-free imaging of protein-ligand interactions	Heidelberg, Germany	www.graffinity.com
Illumina	Oligonucleotide synthesis, automated large-scale genotyping systems	San Diego, California	www.illumina.com
las ibra man	based on microbead technology	Coulabad California	
Invitrogen	Molecular biology products	Carlsbad, California	www.invitrogen.com
Jerini Array Technologies	Peptide- and protein-domain microarray technology, substrate identification service for kinases	Berlin, Germany	www.jerini.com/array
KeyNeurotek	Functional screening for target identification, validation and drug testing	Magdeburg, Germany	www.keyneurotek.de
Kiadis	Complex mixture screening using label-free or label-based formats	Leiden, The Netherlands	www.kiadis.com
WITA Proteomics	Predictive toxicology; evaluation of lead compounds	Berlin, Germany	www.wita-proteomics.com
General 3D Pharmaceuticals	In-house drug discovery	Yardley, Pennsylvania	www.3dp.com
Affymax	Drug discovery	Palo Alto, California	www.affymax.com
Amgen	Protein and small-molecule drug discovery and development	Thousand Oaks, California	www.amgen.com
Apogent Technologies	Equipment and products for cell and molecular biology	Portsmouth, New Hampshire	www.apogent.com
Argenta Discovery	High-throughput screening, sample management, informatics	Harlow, UK	www.argentadiscovery.com
Astex Technology	Computational screening of virtual libraries, high-throughput X-ray crystallography and software for protein–ligand structure determination	Cambridge, UK	www.astex-technology.com
Amersham Biosciences	Scintillation proximity assay beads and kits, LEADseeker beads and imaging system, reagents and imaging systems for a range of assays	Piscataway, New Jersey	www.amershambiosciences.com
CombinatoRx	Lead compound identification and screening	Boston, Massachusetts	www.combinatorx.com
Cytos Biotechnology	DELphi high-throughput functional genomics technology	Zurich, Switzerland	www.cytos.com
De Novo Pharmaceuticals			W W W W . C y LO O . C O I I I
Conquer diagnostics	Screening of virtual libraries, in-house drug discovery	Cambridge, UK	www.denovopharma.com
denoval diagnostics	Screening of virtual libraries, in-house drug discovery DNA and RNA extraction, genotype analysis of drug-metabolizing enzymes and custom genotyping services for polymorphic genes	,	
	DNA and RNA extraction, genotype analysis of drug-metabolizing enzymes	Cambridge, UK	www.denovopharma.com

Correction: In the Table of suppliers in the feature "DNA microarray technology" (Nature 416, 884–895; 2002), the Product/activity entries for Memorec Stoffel and Schleicher & Schuell were inadvertently transposed and should read

Memorec Stoffel	PIQOR technology for producing custom and generic murine and human	Cologne, Germany	www.memorec.com
	cDNA arrays		
Schleicher & Schuell	Coated slides for microarrays; nylon membranes for PCR-based arrays	Dassel Germany	www.s-und-s.de
