

ERGONOMICS

Are you a bit too hot?

The Unico air conditioning from Rapid Ltd has two discreet grilles that are the only external evidence of an air conditioning unit. The Unico can be installed at low or high level to suit the layout of the room.

Rapid Ltd claims it helps provide efficient climate control solutions without the need for the external condensers and pipework usually associated with installed systems.

Cooling only or cooling & heat pump versions are available in two outputs 8,150 btu (2.39kW) and 10,300 btu (3.02kW). An electronic remote control comes as standard.

The new Smartbrush from Microbrush

Microbrush International Ltd is pleased to introduce the new Smartbrush Classic Disposable Applicators. The new Smartbrush has a shorter, thinner handle and is individually wrapped in a plastic sleeve.

Microbrush International claims the new Smartbrush Classic greatly reduces the risk of cross contamination and allows the dental practitioner to safely bend the tip without touching the fibres with latex gloves.

They also say that if the latex comes into contact with the fibres, it will remain behind, contaminating the solution being applied. The Smartbrush Classic applicators will be available in regular, fine and superfine sizes and are packed in 4 individual boxes containing 100 applicators each.

For more information visit www.microbrush.com or phone +353(0)58-45966.

Storage you could find in the dark

DB Orthodontics Limited offers a range of colour co-ordinated aluminium storage trays to help practice management for orthodontists and general practitioners.

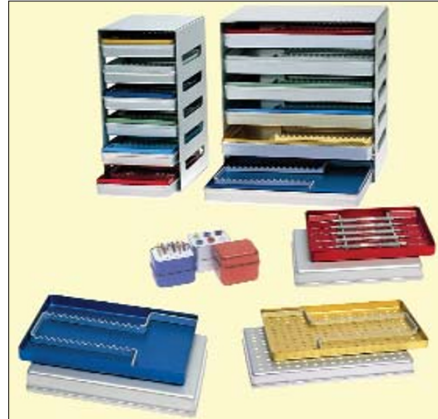

The range includes a selection of aluminium instrument trays, in a choice of colours. DB Orthodontics claims they are designed to co-ordinate with the surgery décor or aid colour coordination for treatments or surgeries.

DB Orthodontics also supplies a choice of aluminium storage racks for their instrument trays. Either front or side loaded, they can help save space or can be wall or table mounted as required.

Also on offer from DB Orthodontics is a wide selection of colour coordinated endodontic boxes in a myriad of designs, from simple 8 hole endodontic dispensers to complete endodontic organisers. DB

Orthodontics claims these endodontic boxes are autoclavable and are competitively priced.

Do you need some Carisma in your surgery?

The Fedesa Carisma from Henry Schein maintains the company's policy of high quality products. Henry Schein claims the Fedesa Carisma boasts many features and has been designed for ease of use, enhancing the quality of the dentist's day; with chair height adjustment from 440mm to 810mm. Lift capacity is 200kg with the choice of foot or keypad controls, allowing convenient access and maximum comfort for both dentist and patient.

The Fedesa Carisma is presented complete with a well-equipped delivery system and cuspidor. Other features of the chair include an auto-raised safety system, and seamless upholstery for improved infection control.

For more information phone Henry Schein on 08700 10 20 41.

Would you like better access in your surgery?

The Tecnodent Linda 3 chair from Tridac Dental has been designed particularly for installation in smaller surgeries where space is at a premium. With synchronised footrest and seat tilt facilities, the leg-break feature permits easy entry by elderly patients.

Tridac claims that it allows the easiest possible access for treatment. Equally, the compact format when in the exit position, frees up space for staff to move around between patients after working.

The Linda 3 Chair has programmes for the most popular working positions: Trendelenburg, return to exit and last position memory. An anatomical backrest is standard with lateral support, whilst easy-to-operate foot control joysticks are provided on the base of the chair to organize movements and programme initiation.

For more information phone 01932 242 398 or email paul@tridac.demon.co.uk.
