

Forthcoming evidence-based courses and conferences

17–19 July 2006

2006 Oxford Workshop on Evidence-Based Diagnostics
Oxford, UK

Contact: Olive Goddard, Centre and Editorial Manager, Centre for Evidence-Based Medicine, Department of Primary Care, Old Road Campus, Headington, Oxford, UK (tel.: +44 (0)1865 226991; fax: +44 (0)1865 226845; e-mail: olive.goddard@dphpc.ox.ac.uk) or see www.cebm.net/

8–12 August 2006

Sixth Rocky Mountain Evidence-Based Health Care Workshop
Keystone CO, USA

For information, contact Jennifer McIntyre (tel.: +1 303 315-0002; e-mail: jennifer.mcintyre@uchsc.edu) or see www.uchsc.edu/ebhc

4–7 September 2006

Intensive 4-day Course in Systematic Reviews
London, UK

This intensive course in systematic reviews for clinical and nonclinical professionals will be held at the International Centre for Evidence-Based Oral Health of the University College London Eastman Dental Institute (www.eastman.ucl.ac.uk/iceboh). It is limited to 10 participants and is aimed at those who have not yet conducted a systematic review or those engaged in a review who seek supervised guidance. The Eastman is an ideal location for study, being in easy reach of all London airports and train stations.

For further information, contact Shirley Goodey (e-mail: s.goodey@eastman.ucl.ac.uk). Closing date 9 June 2006 (note: the course is likely to be fully subscribed before this date).

11–15 September 2006

12th Oxford Workshop on Teaching Evidence-Based Practice
Oxford, UK

Contact: Olive Goddard, Centre and Editorial Manager, Centre for Evidence-Based Medicine, Department of Primary Care, Old Road Campus, Headington, Oxford, UK (tel.: +44 (0)1865 226991; fax: +44 (0)1865 226845; e-mail: olive.goddard@dphpc.ox.ac.uk) or see www.cebm.net/

20 September 2006

Medical Statistics: Making a Difference in Health Care
Oxford, UK

The Centre for Statistics in Medicine was established in Oxford in September 1995 and for the last 10 years the principal tenet of the work has been to promote the awareness and application of appropriate statistical methods in medical research. Eight key-note speakers will provide an opportunity to reflect on the impact that the profession of medical statistics has had on medical research as a whole. The day will be enjoyed by individuals from either medical or statistical backgrounds. The course will be based at Magdalen College.

Further information can be found at www.csm-oxford.org or contact Tracy Edwards, Centre for Statistics in Medicine, Wolfson College, University of Oxford, Linton Road, Oxford OX2 6UD, UK (tel.: +44 (0)1865 284402).

29 November 2006

One-day Workshop on Evidence-based Practice
Oxford, UK

Contact: Olive Goddard, Centre and Editorial Manager, Centre for Evidence-Based Medicine, Department of Primary Care, Old Road Campus, Headington, Oxford, UK (tel.: +44 (0)1865 226991; fax: +44 (0)1865 226845; e-mail: olive.goddard@dphpc.ox.ac.uk) or see www.cebm.net/

The Oxford Master's Programme in Evidence-based Healthcare

The programme includes three part-time award-bearing courses: a Postgraduate Certificate, a Postgraduate Diploma and an MSc. The aim of the Postgraduate Certificate programme is to help health professionals become good consumers of health research, by giving them the skills to find evidence, appraise evidence, and use evidence to make clinical and health management decisions. The Postgraduate Diploma and MSc levels focus on developing research skills. A work–study approach to learning is used, where health professionals identify relevant research issues within their work environment, and use the structure of the Diploma and MSc modules to design research projects that can generate evidence for healthcare. There is a minimum attendance requirement of 70% for each of the taught components on each course.
