

Keyword Index, Volume 89

18S rDNA 15

acetone 453

adaptive landscape 239

Aedes aegypti 7

Ag-NORs 15

Agromyzidae 394

alcohol dehydrogenase 453

allelic switch 346

allozyme electrophoresis 20

allozymes 99, 163, 171, 199, 394, 439

Alnus trabeculosa 273

altitude 99

animal population 413

Antirrhinum 387

Antirrhinum majus 44

artificial selection 225

assignment 171

assortative mating 480

Atherina boyeri 363

Atlantic salmon 288, 465

backcrossing 212

Bactrocera oleae 453

Barbus 36

Biomphalaria glabrata 258, 266

body size 145

Boloria aquilonaris 439

brown trout 288

butterflies 20

Camellia japonica 120

centipede 239

cephalopod 417

ceratitis capitata 480

chromosomal arrangements 133

chromosome non-disjunction 358

cline 145, 417

coffee 488

coevolution 318, 394

colonisation 154

colonization 36

condition factor 280

connectivity 439

conservation 191, 439

conservation genetics 387

consumption and oviposition 371

control region 90

Cordulegaster 184

correlational selection 480

Cordulegastridae 184

correspondence analysis 171

Cottus gobio 280

courtship song 1

Criollo 380

cultivar identification 56

Cuscuta europaea 318

Cyprinidae 163

cytoplasmic inheritance 44

deleterious mutation 253

demographic genetics 120

dengue 7

descent-graph 339

development 300

developmental bias 239

developmental constraint 239

developmental drive 239

developmental instability 225

developmental organizers 44

developmental stability 139, 293

dispersal 64, 253, 258

distribution 446

DNA sequences 266

domestication 380

donkey 207

Drosophila 1, 114

Drosophila melanogaster 70, 145

Drosophila subobscura 133

effective population size 413

electrophoresis 99

endangered species 387

environment 280

environmental heterogeneity 473

environmental stress 70

extinction danger 207

F-statistics 199, 207

feather structure 139

female choice 480

fingerprinting 56

fish 446, 460

fitness 280, 413, 425

fitness epistasis 329

fixation of growth habit-leaf shape 44

flour beetle 425

flow cytometry 488

fluctuating asymmetry 139, 225, 293

foodplant quality 225

foraging behaviors 371

frequency dependent fitness 212

frequency-dependent selection 329

gametic phase disequilibrium 273

Gasterosteus aculeatus 293

gene flow 318

genetic architecture 300

genetic correlation 473

genetic differentiation 90, 99, 417

genetic diversity 64, 280, 380

genetic population structure 20

genetic sexing strains 480

genetic structure 318

genetic variation 70, 191, 273

genetics 114

gentilulus 154

germline 247

glacial refuges 353
