GvL effects in T-prolymphocytic leukemia: evidence from MRD kinetics and TCR repertoire analyses

L Sellner, M Brüggemann, M Schlitt, H Knecht, D Herrmann, T Reigl, A Krejci, V Bystry, N Darzentas, M Rieger, S Dietrich, T Luft, AD Ho, M Kneba and P Dreger

Bone Marrow Transplantation (2017) **52**, 656; doi:10.1038/bmt.2017.12

Correction to: *Bone Marrow Transplantation* (2017) **52**, 544–551; doi:10.1038/bmt.2016.305; published online 12 December 2016

Since the online publication of this article the authors realised there were errors in the legend of Figure 2.

The original text was: 'The alpha diversity of IGHV and IGHJ combinations usage at different landmarks for the three analyzed patients and their donors.'

The correct text is: 'The alpha diversity of TRBV and TRBJ combinations usage at different landmarks for the three analyzed patients and their donors.'

The authors would like to apologise for any inconvenience caused by these errors.

This error has now been rectified, and the corrected article appears in this issue. The html and online pdf versions have also been rectified, and now carry the corrected paper.
