

Retractions

Retraction: High Mobility Group A1 (HMGA1) proteins interact with p53 and inhibit its apoptotic activity

GM Pierantoni, C Rinaldo, F Esposito, M Mottolese, S Soddu and A Fusco

Cell Death and Differentiation (2014) 21, 503; doi:10.1038/cdd.2013.183; published online 6 December 2013

Retraction to: *Cell Death and Differentiation* (2006) 13, 1554–1563; doi:10.1038/sj.cdd.4401839

It has come to our attention that multiple bands in Figure 1e and lanes in Figure 3a have been inappropriately duplicated.

The authors are unable to provide the original source files that were used to generate these data and they have all agreed to retract this article. The conclusions of the paper have been confirmed by subsequent papers.

Retraction: INrf2 (Keap1) targets Bcl-2 degradation and controls cellular apoptosis

SK Niture and AK Jaiswal

Cell Death and Differentiation (2014) 21, 503; doi:10.1038/cdd.2013.185; published online 13 December 2013

Retraction to: *Cell Death and Differentiation* (2011) 18, 439–451; doi:10.1038/cdd.2010.114

Although majority of the data are reproducible and conclusions do not change, as they are supported by several experiments,

the corresponding author has decided to retract this article in its entirety due to reuse of Figure 5a from other publication by the first author.
