Efficient culture system for human embryonic stem cells using autologous human embryonic
stem cell-derived feeder cells

Exp Mol Med 2005;37:399-407

In the article cited above,
incorrect figures were placed in Figures 3 and 5.
The corrected material is printed below. Other parts of this article remain unchanged.

The authors apologize for any inconvenience they may have caused.

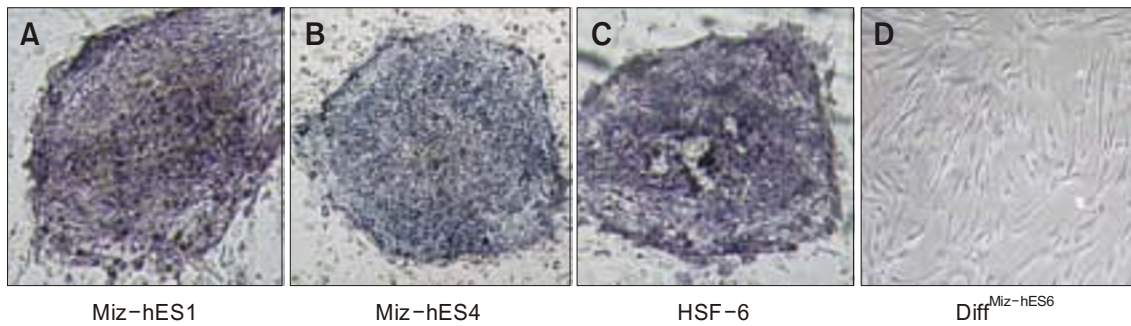

Figure 3. A-D

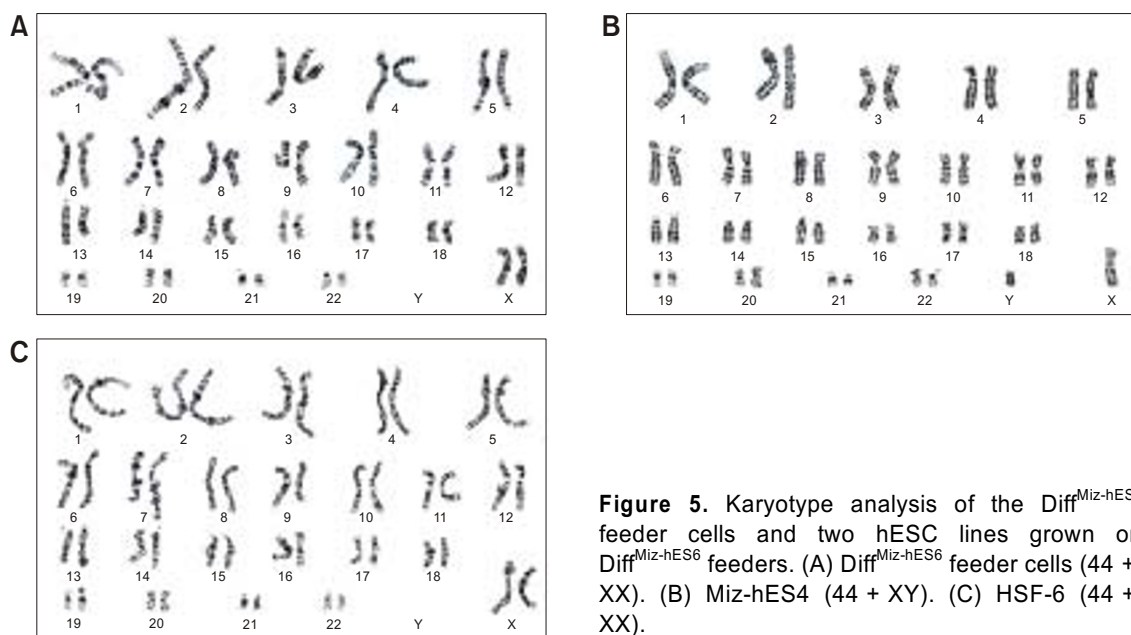

Figure 5. Karyotype analysis of the Diff^{Miz-hES6} feeder cells and two hESC lines grown on Diff^{Miz-hES6} feeders. (A) Diff^{Miz-hES6} feeder cells (44 + XX). (B) Miz-hES4 (44 + XY). (C) HSF-6 (44 + XX).
