## Subject Index

- ACANTHAMOEBA adherence to contact lenses and removal by cleaning agents, 589
- keratitis—Resistance to medical therapy, 835
- ADULT vitelliform macular dystrophy, 210
- AGE-RELATED cataract in the Asian Community in Leicester: A community based study, The prevalence of, 723
- AMBLYOPIA, Risk factors in, 787
- AMBLYOPIC children—A pilot study, White light interferometry in, 802
- ANTERIOR ischaemic optic neuropathy: Differentiation of arteritic from non-arteritic type and its management, 25
- segment ischaemia, 1
- AUTONOMIC function in Holmes Adie syndrome, 607
- BLOOD-BRAIN interface, The, 249
- BOOK REVIEWS, 771
- BOTULINUM toxin therapy in dysthyroid strabismus, 538
- CALCULATED versus A-scan result for axial length using different types of ultrasound probe tip, 718
- CATARACT surgery with intraocular lens implantation in Fuchs' heterochromic cyclitis, 543
- CELL culture, 622
- CEPHALIC radiation and retinal vasculopathy, 195
- CHLAMYDIAL and adenovirus conjunctivitis, Per-nasal swabbing as an aid to the diagnosis of, 510
- CHOROIDAL and related structures, Development of the, 255
- circulation and its watershed zones, *In Vivo*, 273
- retinal metabolism, The—An overview, 243
- , Functional anatomy of the: Methyl methacrylate casting of human choroid, 262
- , Pulsatile flow in the: A preliminary investigation, 310
- endothelial junctions in primates, 290
- CHOROIDO-RETINAL inflammation in man, Immune mechanisms in, 345
- interface by toxoplasma, Disruption of, 366
- CHRONIC glaucoma in North-East Ghana, Clinical and pathological features of, 107
- Northern Ghana—A retrospective study of 397 patients, 115
- intraocular inflammation, Combination low dose cyclosporin A and steroid therapy in, 514
- open angle glaucoma: The rate of change in different regions of the field, The visual field in, 557

- simple glaucoma and ocular hypertension treated topically with pilocarpine or with timolol, The progress of the visual field in, 563
- CONJUNCTIVAL provocation test (CPT) and systemic allergometric tests in allergic conjunctivitis, Correlation between, 760
- CONTACT lenses to correct aphakia in a clinical trial of cataract management, The use of, 138
- CONTROL of subretinal fluid: Experimental and clinical studies, 340
- CONVENTIONAL repair of bullous retinal detachment using posterior segment air injection, Results and complications of, 222
- CORNEAL endothelium, The, 389
  - epithelial oxygen uptake rate in diabetes mellitus, 757
  - transplantation in keratoconus, Predictors for likelihood of, 493
- COSTING a community based screening programme for the detection of glaucoma, 98
  
- DECREASED choroidal blood flow associated with retinitis pigmentosa, 374
- DECENTRATION of the posterior chamber lens implant: the effect of open size on the incidence of visual aberration, 132
- DEVELOPMENT of cataract following trabeculectomy, The, 577
- DIABETIC retinopathy: A physician's view, 169
- DIFFUSE diabetic macular oedema: A comparison between argon and krypton lasers, Treatment of, 668
- DIPLOPIA on down-gaze following orbital trauma, Management of, 535
- DNA analysis and recombination in X-linked retinitis pigmentosa, 204
- DOMINANT inherited tilted disc syndrome and lacquer cracks, 504
  
- EFFECT of Nd: YAG iridotomy on intraocular pressure in hypertensive eyes with shallow anterior chambers, The, 823
  - cervical sympathectomy on retinal vessel responses to systemic autonomic stimulation, 181
- EPIKERATOPHAKIA for keratoconus, 531
- EXTRACAPSULAR cataract surgery with and without intraocular lens implantation in Fuchs' heterochromic uveitis, 145
  
- FILTERING surgery with 5-Fluorouracil: A second course, 819
- FLUORESCIN angiographic features, natural course and treatment of radiation retinopathy, 657
- FRACTAL properties of retinal vessels: Embryological and clinical implications, The, 235
  
- HYDROGEL lens implants, Secondary evaluation of, 450
- HYDROXYPROPYL methylcellulose in extracapsular cataract surgery with intraocular lens implantation: Intraocular pressure and inflammatory response, 121
- IMPAIRED autoregulation of the retinal vasculature and microalbuminuria in diabetes mellitus, 174
  
- INTRAOCULAR surgery following penetrating keratoplasty: The risks and advantages, 693
  - tuberculosis, 486
- KETOCONAZOLE in the treatment of blepharitis, 151
- LEBER's hereditary optic neuropathy in women, 482
- LETTERS to the Journal, 649, 765, 861
- LIGHT scatter from the central human cornea, 584
  
- MACROPHAGES related to Bruch's membrane in age-related macular degeneration, 613
- MACULAR corneal dystrophy following penetrating keratoplasty, Recurrent, 698
- MERSILENE mesh ptosis sling, The, 456
- MICROBIAL keratitis after penetrating keratoplasty, 74
- MICROGRAPHIC (MOHS') surgery in the management of periocular basal cell epitheliomas, 160
- MOLECULAR genetic studies of X-linked retinitis pigmentosa, New strategies in, 737
  
- NEODYMIUM: YAG transscleral cyclocoagulation: A clinical study, 651
- NUCLEOLAR organiser regions in iris melanocytic tumours: An accurate predictor? 743
  
- OCULAR autonomic nerve function in Lambert-Eaton myasthenic syndrome, 473
  - enlargement following infantile corneal opacification, 497
  - trauma caused by airgun pellets: A ten year survey, 855
- OPHTHALMIC complications of amniocentesis, 845
  - problems in the contact lens wearing population, The incidence of, 706
- OPHTHALMOLOGICAL significance of HLA associated uveitis, 839
- OXFORD modular cataract image analysis system, 638
  
- PECULIAR ophthalmic proliferation, 79
- PENETRATING keratoplasty for keratoconus, The success of, 673
- PERIBULBAR versus retrobulbar anaesthesia, 445
- PERMEABILITY of ocular vessels and transport across the blood-retinal-barrier, 303
- PIGMENTED lesions of the retinal pigment epithelium and familial adenomatous polyposis, 216
- POST keratoplasty dimensional and refractive change in contact lens and spectacle corrected cases, 689
- PRECORNEAL residence times of sodium hyaluronate solutions studied by quantitative gamma scintigraphy, 594
- PROCESSING and transport of retinoids by the retinal pigment epithelium, 326
- PSYCHOPHYSICAL testing in children, A perspective on, 794
  
- REAL time ultrasound in the assessment of intraocular foreign bodies, 727
- REFRACTIVE changes in silicone filled eyes, 230
- REGIONAL variation within the interphotoreceptor matrix from fovea to the retinal periphery, 333
- RETINAL and choroidal blood flow, Control of, 319
  - vascular occlusion, The investigation of patients with, 464

- vein occlusion, Mechanisms leading to an acute rise in intraocular pressure in, 439
- vessel responses to passive tilting, 751
- RETROLAMINAR optic nerve in man, Microvascular study of the: the possible significance in anterior ischaemic optic neuropathy, 7
- RICHARDSON Cross lecture 1989. Amblyopia—An historical perspective, 775
  
- SCREENING for glaucoma in the community by non-ophthalmologically trained staff using semi-automated equipment, 89
- hydroxychloroquine retinal toxicity: Is it necessary? 752
- of glaucoma: Preliminary evaluation, A hand-held OKP chart for the, 632
- SECONDARY intraocular lens implantation: Eight year experience, 548
- SECOND eye involvement in age-related macular degeneration: A four-year prospective study, 813
- STRUCTURE of the lamina cribosa of the human eye, The: an immunocytochemical and electron microscopical study, 42
- SPATIAL vision, The influence of dopamine on, 806
- STRESS birefringence in the human cornea, 830
- SUBRETINAL gas, 469
- SUCCESS and survival of repeat corneal grafts, The, 58
- SUPERIOR peripheral iridectomy: Prevention of pupil block due to silicone oil, The, 226
  
- SURGERY for cataract, The increasing frequency of, 127
- SYNTHETIC corticosteroids into human aqueous humour, Penetration of, 526
  
- TOPICAL flurbiprofen: an effective treatment for episcleritis? 521
- TOPICALLY applied betamethasone sodium phosphate into human aqueous humour, Penetration of, 603
- TRABECULECTOMY for open angle glaucoma, Improvement of visual field following, 103
- , The complications of, (A 20-year follow-up), 425
- TUMOUR-ASSOCIATED retinal pigment epitheliopathy, 382
  
- UVEAL effusion syndrome and trans-scleral flow, The, 354
- UVEITIS, The value of laboratory testing in, 732
  
- VASCULAR changes in peripheral corneal destructive disease, 65
- VISUAL function in cataract with the patient's perceived visual disability, Comparing clinical tests of, 712
- performance in idiopathic macular holes, 190
- VITRECTOMY and fluid/silicone oil exchange, Extended criteria for, 850
