
LETTER TO THE EDITOR

Sir,
I regret that an acknowledgement was inadvertently omitted from my article entitled 'Tumour fluorescence and tumour-associated fluorescence of choroidal melanomas', which was published in the last issue of *Eye* (6(6): 587-593;1992). I would have had great pleasure in giving Professor W. R. Lee due credit for the pathology per-

formed at the Tennent Institute, Glasgow, which is where I was working at the time the paper was written.
