CORRIGENDUM

Activated human T cells express alternative mRNA transcripts encoding a secreted form of RANKL

NC Walsh, KA Alexander, CA Manning, S Karmakar, JF Wang, CM Weyand, AR Pettit and EM Gravallese

Genes and Immunity (2013) **14**, 407; doi:10.1038/gene.2013.39

Correction to: *Genes and Immunity* (2013) **14**, 336–345; doi:10.1038/gene.2013.29; published online 23 May 2013

Since the publication of this paper, the authors have noticed that the name of the fourth author was incorrectly listed as SK Karmakar. The correct name is shown above.

In addition, on page 339 the last sentence of the second paragraph was incorrect. It should read as stated below:

This attenuation was verified by quantitative PCR showing reduced expression of both total and membrane-bound TNFSF11 mRNA in the presence of CsA (Figure 3B, right panel) or SB239063 (Supplementary Figure 3) but not PD98059 or CAPE inhibitors (Supplementary Figure 3).

The authors apologise for any inconvenience caused.
