

Position Available. . .

Clinical Geneticist Assistant/Associate Professor

The University of Miami Medical School Department of Pediatrics invites applications for an Assistant/Associate Professor level faculty position in the Division of Medical Genetics. The geneticist would work in all aspects of clinical genetics in a growing program. Based in Florida's largest hospital and Children's program, we serve an area that is culturally and ethnically diverse and covers approximately $\frac{1}{3}$ of Florida. A history or strong interest in collaborating in clinical research with molecular geneticists is important. Must be ABMG certified or eligible to sit for Boards at next offering. There is an active cytogenetic service, new DNA diagnostic laboratory and active research program. Salary commensurate with experience and training.

Interested persons should send curriculum vitae and the names of three references to Herbert A. Lubs, M.D., Professor and Director of the Division of Genetics, Department of Pediatrics, University of Miami School of Medicine. P.O. Box 016820-D820, Miami, FL 33101.
