

CORRIGENDUM: The utility of the traditional medical genetics diagnostic evaluation in the context of next-generation sequencing for undiagnosed genetic disorders

Vandana Shashi MD, Allyn McConkie-Rosell PhD, Bruce Rosell BS, Kelly Schoch MS, Kasturi Vellore MD, Marie McDonald MD, Yong-Hui Jiang MD, PhD, Pingxing Xie PhD, Anna Need PhD and David G. Goldstein PhD

Genet Med advance online publication, 8 August 2013; doi:[10.1038/gim.2013.99](https://doi.org/10.1038/gim.2013.99)

In this article, the last author's middle initial was listed incorrectly. The correct name is David B. Goldstein.

CORRIGENDUM: Long-term, open-labeled extension study of idursulfase in the treatment of Hunter syndrome

Joseph Muenzer, Michael Beck, Christine M. Eng, Roberto Giugliani, Paul Harmatz, Rick Martin, Uma Ramaswami, Ashok Vellodi, James E. Wraith, Maureen Cleary, Muge Guzsavas-Calikoglu, Ana Cristina Puga, Marwan Shinawi, Birgit Ulbrich, Suresh Vijayaraghavan, Susanne Wendt, Anne Marie Conway, Alexandra Rossi, David A.H. Whiteman and Alan Kimura

Genet Med (2011). 13 (2): 95–101; doi:[10.1097/GIM.0b013e3181fea459](https://doi.org/10.1097/GIM.0b013e3181fea459)

In **Figure 4**, the legend states that basal liver volume was 1213 ± 30 l and spleen volume was 292 ± 19 l. This is incorrect. The correct basal liver volume was 1213 ± 30 ml and spleen volume was 292 ± 19 ml. The authors regret the error.
