CORRIGENDUM: What are people willing to pay for whole-genome sequencing information, and who decides what they receive?

Deborah A. Marshall PhD, Juan Marcos Gonzalez PhD, F. Reed Johnson PhD, Karen V. MacDonald MPH, Amy Pugh BA, Michael P. Douglas MS and Kathryn A. Phillips PhD

Genet Med advance online publication, 26 October 2017; doi:10.1038/gim.2017.84

Correction to: *Genetics in Medicine* (2016) 18, 1295–1302 doi:10.1038/gim.2016.61

In the published version of this article, the ranges of willingness to pay on the x-axes in **Figure 2** were incorrect. The corrected figure appears below.

Figure 2 Distribution of respondents' ($n=410$) willingness to pay.

The options (a) a basic genomic report that includes only actionable genomic status information and (b) additional genomic information for which the medical treatment is currently unclear.
