INFORMATION FOR CONTRIBUTORS

Heredity publishes original articles of interest to research workers, teachers, and students in any area of genetics. New research, history, review and criticism are accepted.

Two copies of manuscripts should be submitted, and prepared so as to conform with the usage in current numbers of the Journal, especially with regard to illustrations, references, tables and summaries. The address of the Author and the date of receipt of the manuscript will be printed under the title which should be scrupulously abbreviated.

Since space in the journal is at a premium, manuscripts should be prepared with all possible brevity. Special justification will be required in future for papers of more than 15 pages, and the norm should be substantially less than this.

Shorter papers not exceeding six pages of print in length will be published in the next number to go to press after their acceptance. Notes and comments, which should normally not exceed three pages, will be accorded the same priority as shorter papers.

Text figures must be (1) suitable for line block reproduction, (2) lettered in pencil, (3) supplied with legends and (4) separated from the text but allocated to sections of the text.

Plates should be mounted to fit or exceed the whole size of the page (15 cm × 25 cm) if possible. Half-tone plates can be used if wished. Colour plates will be accepted only if the author bears half the cost of reproduction. Transparencies should accompany colour plates if available.

The international system of units (SI units) should be used for all measurements.

Excessive corrections will be chargeable to the Author. Offprints should be ordered on the appropriate form which will accompany the proofs. 50 free off-prints will be provided and further off-prints will be supplied at cost if ordered before the issue is printed.

Subscription details

Published six times a year, February, April, June, August, October, December. The annual subscription rate is £58.00 (\$116.00), single numbers £11.00 (\$22.00) ISSN 0018-067X
