Genetic Research with Nonhuman Primates: Serving the Needs of Mankind

The Southwest Foundation Forum will host an international symposium entitled "Genetic Research with Nonhuman Primates: Serving the Needs of Mankind", in San Antonio, Texas, on March 2-5, 1986. Invited speakers will present papers in the areas of biochemical genetics, cytogenetics, immunogenetics, molecular genetics, population genetics, and genetic predisposition to common diseases. Contributed papers also will be accepted for presentation.

A Distinguished Scientist Award in Genetics and a cash prize of \$1,000 will be made to a geneticist who has already made significant contributions in health-related basic research and has demonstrated great potential for future achievement. The recipient, who need not necessarily have

worked with non-human primates, will be invited to present a keynote address at the symposium.

Please send requests for information and letters of nomination for the Distinguished Scientist Award to:

John L. VandeBerg, Director,
Department of Genetics
Southwest Foundation for Biomedical
Research
P.O. Box 28147
San Antonio, TX 78284

Letters of nomination must be received by July 1, 1985.
