

## ANNOUNCEMENT

### **International Symposium on Pulses Research. 4–8 December, 1993, Kanpur, India**

The Symposium programme will cover cool season (chickpea, lentil, drypeas, grasspea, kidney bean and fababean) as well as warm season (pigeonpea, mungbean, urdbean, cowpea, horsegram, mothbean, and ricebean) grain legumes.

The topics will cover a wide range of subjects, namely:

enhancement of genetic resources,  
breeding for resistance (biotic and abiotic)  
productivity,  
genetics,  
cytogenetics,  
physiology,  
biotechnology,  
disease and pest management,  
production technology (legume-based cropping systems, fertility management; including biological

nitrogen fixation, weed management and sustainable agriculture),  
grain quality,  
post-harvest technology,  
and developmental strategies.

The Symposium is organized by the Indian Society of Pulses Research and Development (ISPRD), Directorate of Pulses Research, Kanpur — 208 024, India. It is co-sponsored by the Indian Council of Agricultural Research, New Delhi, India.
