

## Books received

**An Introduction to Animal Cytogenetics.** H. C. Macgregor. Chapman and Hall, London. 1993. Pp. 238. Price £34.95, paperback. ISBN 0 412 54600 0.

**The Chromosome.** J. S. Heslop-Harrison and R. B. Flavell. Bios Scientific Publishers, Oxford. 1993. Pp. 281. Price £49.50, hardback. ISBN 1 872748 32 5.

**Genetics and Society.** Barry Holland and Charalambos Kyriacou. Addison-Wesley. 1993. Pp. 123. Price £12.95, paperback. ISBN 0 201 56515 3.

**The Uses of Life: A History of Biotechnology.** Robert Bud. Cambridge University Press. 1993. Pp. 299. Price £30.00, hardback. ISBN 0 521 38240 8.

**Genetic Analysis of Animal Development. (Second edition).** Adam S. Wilkins. Wiley-Liss. 1993. Pp. 546. Price £37.00, paperback. ISBN 0 471 50270 7.

**RNA Methodologies: A Laboratory Guide for Isolation and Characterisation.** Robert E. Farrell, Jr. Academic Press (Harcourt Brace Jovanovich). 1993. Pp. 317. Price £39.00, comb-bound. ISBN 0 12 249700 7.

**Species Evolution: The Role of Chromosome Change.** Max King. Cambridge University Press. 1993. Pp. 336. Price £40.00, hardback. ISBN 0 521 35308 4.

**Structural Studies of Protein-Nucleic Acid Interaction: the sources of sequence-specific binding.** Thomas A. Steitz. Cambridge University Press. 1993. Pp. 79. Price £12.95, paperback. ISBN 0 521 41489 X.

**The Dynamic Genome. Barbara McClintock's Ideas in the Century of Genetics.** Nina Fedoroff and David Botstein (eds). Cold Spring Harbor Laboratory Press, 1992. Pp. 422. Price £50.00, hardback. ISBN 0 87969 422 X.

**Pretest Genetics: pretest self assessment and review.** Golder Wilson and Janice Finkelstein. McGraw-Hill (Blackwell Scientific Publications). 1993. Pp. 143. Price £13.95, paperback. ISBN 0 07 052009 7.
