**Correction to:** *Hypertension Research* (2016) **39**, 203–209; doi:10.1038/hr.2015.136

After publication of this article, the authors noticed an error in ‘Cacao polyphenol administration’ in the Methods section.

‘The CPE group ( $n=12$ ) received CPE in distilled water ( $1.2 \text{ mg kg}^{-1}$  per day)’ was incorrect. The correct concentration of CPE was  $1.2 \text{ g kg}^{-1}$  per day. This correction does not affect the results or the conclusions of this manuscript.
