Correction to: *International Journal of Obesity* (2014) **38**, 878–882; doi:10.1038/ijo.2013.244

The original version of this article contained two errors. In the Abstract, the correct odds ratio (OR) and 95% confidence interval (CI) for obese women for having an infant with conotruncal defects was OR=1.33 (1.03–1.72), not 1.34 (1.04–1.72). In the

Results section, the correct CI for obese women at the site that collected OGTT results, after adjusting for age and OGTT, was 1.12–5.05, not 1.02–3.76.

The corrected article appears in this issue and the html and online pdf versions have also been amended. The authors would like to apologize for these errors.
