The authors of the above Article noted an error in publication of this paper in Figures 2, 3 and 5, whereby the wrong bond was used

to show the configuration of C-19 in macrolactin X (1). The absolute configuration of C-19 in 1 was *S* but drawn as *R* in Figures 2, 3 and 5. An extra methyl group was found in 2 at C-22 in Figure 2 as well. The corrected figures and legends are shown below.

Figure 2 Key ROESY correlations for 1–3, 5 and 6.

Figure 3 $\Delta\delta_{\text{H}}$ values ($\Delta\delta_{\text{H}} = \delta_{\text{S}} - \delta_{\text{R}}$) obtained for (*S*)- and -(*R*)-MTPA esters of 1, 2 and 5.
