The authors of the above article noted an error in publication of this paper in Figures 1 and 2, whereby the wrong bond was used to show

the configuration of C9 in (-)-quinine and derivatives thereof. The absolute configuration of C9 was R but drawn as S in Figures 1 and 2. Similarly in Figure 1, errors in the structures of berberine (structural isomer), as well as quinocitrinines A and B (missing C3 alcohol) were noted. The corrected figures are shown below.

In addition, the authors of the above noted an error in the address of one author. The correct address for Professor WM Wuest is Department of Chemistry, Temple University, 1901N 13th Street, Philadelphia, PA 19122, USA.
