On page 819 of this Letter, the location of the coral samples was incorrectly given as 50° 25.57' N, 46° 22.05' W. The correct location is 50° 33.0' N, 46° 11.6' W. None of the conclusions are affected. We thank A. Ruffman for drawing this to our attention. Correspondence should be addressed to M.J.R. (riskmj@mcmaster.ca).
