Corrigendum: Coupling of angiogenesis and osteogenesis by a specific vessel subtype in bone

Anjali P. Kusumbe, Saravana K. Ramasamy & Ralf H. Adams

Nature **507**, 323–328 (2014); doi:10.1038/nature13145

In this Article, the labels 'Metaphysis' and 'Diaphysis' were inadvertently swapped in Extended Data Fig 3d. In the Methods Summary on page 327 and in the third paragraph of the Methods it should state that deferroxamine mesylate (DFM) was injected for μ -CT (microtomography) analysis into mice for a period of 6 weeks, rather than 5 weeks. These errors have been corrected in the online versions of the Article.
