Nature **532**, 380–384 (2016); doi:10.1038/nature17638

In this Letter, the graph for the *Fbxw7* mutants in Fig. 2e was a duplicate of the *NICD* graph. This inadvertently occurred during the reformatting of the accepted manuscript, and the panel has now been corrected in Fig. 1 of this Corrigendum, but has not been corrected in the online versions of the original paper.

In addition, owing to an error during the production process, in Fig. 4a, the age of the mice at the start of the experiment should read 55–65 weeks, rather than 5–65 weeks. This error has been corrected in the online versions of the original paper.

Figure 1 | This figure shows the corrected *Fbxw7* graph from Fig. 2e of the original Letter.
