Equipment. Antek Instruments (Houston, TX) introduces a 32-page catalogue featuring their elemental analyzer for nitrogen and/or sulfur determinations. The unit performs total nitrogen and/or total sulfur analyses on gas, liquid, and solid samples in as little as one minute. The catalog also features sample handling equipment, data handling systems, autosamplers, application information, accessories, and consumables.

CMS. Curtin Matheson Scientific (Houston, TX) announces its 1992/93 catalogue, containing information on over 50,000 products from more than 400 suppliers serving clinical and industrial laboratories. Color tabs and indexes direct the reader to a chosen section; page headlines move the reader quickly through the product offerings, and product names and bullets at the beginning of text help differentiate between similar products.

Confusion. Isolab (Akron, OH) offers the Glycohemoglobin Confusion brochure to give background information on GHb assays. Which assays give the most accurate measurement of blood glucose control is also discussed. As the importance of accurately monitoring diabetic control grows with every new study reported, physicians, lab technicians, and hospital managers need straight, simple answers to the growing GHb confusion.

Poster. A colorful poster that aids in the selection of Brownlee HPLC columns is now available from Applied Biosystems (Woolston, U.K.). The 24' X 36' poster illustrates a protein molecule outlined by the 20 amino acids with their molecular weights. Guidelines for selecting columns by molecule and molecular weight are listed at the bottom of the chart.

Labels. From GMP Labeling (Redwood City, CA) comes a compliance manual describing the company's regulatory compliance identification systems. Included in the full-color manual are labels and signs, as well as information on design-your-own label and sign kits. Introduced are pin-feed label series and GMPrint software. Together they generate multiple copies of labeling quickly and accurately with a few strokes on the computer keyboard.
