Pressure. A resource for research laboratory managers and production plant engineers alike, a brochure from Pressue Products Industries (Warminster, PA) gives an overview of the company's product lines: diaphragm compressors, agitated reactors, magnetic mixers, pressure vessels, high-pressure pumps and pump systems, and valves and fittings. The products may be used in fluid handling separations in which pressures may range from vacuum to 150,000 psi, and temperatures may vary from cryogenic to more than 1200xF.
