

# FREE LITERATURE

**Chemical Handbook.** The 1991-92 *Janssen Chimica*, a free catalog of fine chemicals for research and industry, is now available through Spectrum Chemical Corporation (Gardena, CA). This 1,392-page catalog contains 12,000 listings of organic and inorganic compounds, biochemicals, deuterated compounds, catalysts, stains and dyes, and ion-exchange resins. A chemical abstracts registry number index and a molecular formula index are also available.
