## BioMagazine

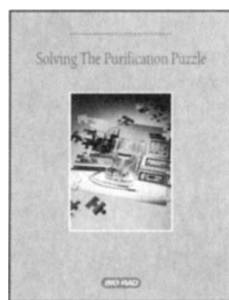

Advanced Magnetics' (Cambridge, MA) BioMagazine Fall, 1993, brochure highlights products involved in magnetic and immunoassay procedures. It features a sterile, pyrogen-free magnetic particle and an improved procedure for mRNA purification, as well as other products, articles, product news, and technical tips.

## HPLC catalog

A new catalog from Rainin Instrument (Emeryville, CA) contains a comprehensive listing of systems, components, and supplies for analytical and preparative HPLC. Detailed descriptions accompany each product. The catalog's sections are divided by product function for ease in locating related products.

## Product catalog

Research Organics' (Cleveland, OH) new catalog offers 3,000 biochemicals including biological buffers, fluorescent compounds, enzyme test reagents, molecular biochemicals, and plant tissue culture. The full-color product section describes fluorescent labels, chromogenic substrates, and new acrylamide and buffer solutions.

## Solvent handling

A brochure from Phenomenex (Torrance, CA) includes three vital HPLC solvent handling devices designed to increase analytical performance while reducing system operating costs. The 4-channel Degasssex vacuum filtration system, the RC-100 Solvent Recycler, and the PhenoFlow liquid flow monitor system are described.
