Roundtable

Dr. Sorensen manages the Life Sciences Practice (investment banking and a life sciences-focused fund called ARIANE) at Muzinich & Co., a boutique investment bank in New York. His scientific credentials include dual bachelor's degrees in two disciplines of biology and a Ph.D. in molecular and cellular biology. Dr. Sorensen worked as a research scientist at the Salk Institute in La Jolla, California, where he was an Amgen and a Damon Runyon Fellow, conducting research in brain development. Prior to joining Muzinich & Co., Dr. Sorensen served at the U.S. Patent Office in Washington, DC, as a Patent Examiner in the biotechnology division. He is also a registered Patent Agent.
