

Functional interplay between the DNA-damage-response kinase ATM and ARF tumour suppressor protein in human cancer

Georgia Velimezi, Michalis Lontos, Konstantinos Vougas, Theodoros Roumeliotis, Jirina Bartkova, Maria Sideridou, Ayguel Dereli-Oz, Maciej Kocylowski, Ioannis S. Pateras, Kostas Evangelou, Athanassios Kotsinas, Ines Orsolic, Sladana Bursac, Maja Cokaric-Brdovcak, Vassilis Zoumpourlis, Dimitris Kletsas, George Papafotiou, Apostolos Klinakis, Sinisa Volarevic, Wei Gu, Jiri Bartek, Thanos D. Halazonetis and Vassilis G. Gorgoulis

Nat. Cell Biol. **15**, 967–977 (2013); published online 14 July 2013; corrected after print 28 August 2013

In the version of this Article originally published, there was an error in Fig. 8e. The arrow beside ARF in green should have been pointing up and the arrow beside ARF in red should have been pointing down. This has been corrected in the HTML and PDF versions of the Article.

Stromal–epithelial crosstalk regulates kidney progenitor cell differentiation

Amrita Das, Shunsuke Tanigawa, Courtney M. Karner, Mei Xin, Lawrence Lum, Chuo Chen, Eric N. Olson, Alan O. Perantoni and Thomas J. Carroll

Nat. Cell Biol. **15**, 1035–1044 (2013); published online 25 August 2013; corrected after print 29 August 2013

In the version of this Article originally published, there was an error in Fig. 4a. The labels “Yap siRNA” and “Taz siRNA” were switched. This has been corrected in the PDF and HTML versions of the Article.
