Corrigendum: Combined CSL and p53 downregulation promotes cancer-associated fibroblast activation

Maria-Giuseppina Procopio, Csaba Laszlo, Dania Al Labban, Dong Eun Kim, Pino Bordignon, Seung-Hee Jo, Sandro Goruppi, Elena Menietti, Paola Ostano, Ugo Ala, Paolo Provero, Wolfram Hoetzenecker, Victor Neel, Witold W. Kilariski, Melody A. Swartz, Cathrin Briskin, Karine Lefort and G. Paolo Dotto

Nat. Cell Biol. **17**, 1193–1204 (2015); published online 24 August 2015; corrected after print 28 August 2015

An error in the print version of this Article meant that Witold W. Kilariski's name was incorrect. This has been corrected in all online versions.

Erratum: mTOR regulates MAPKAPK2 translation to control the senescence-associated secretory phenotype

Innes, Ana Banito, Athena Georgilis, Alex Montoya, Katharina Wolter, Gopuraja Dharmalingam, Peter Faull, Thomas Carroll, Juan Pedro Martínez-Barbera, Pedro Cutillas, Florian Reisinger, Mathias Heikenwalder, Richard A. Miller, Dominic Withers, Lars Zender, Gareth J. Thomas and Jesús Gil

Nat. Cell Biol. **17**, 1205–1217 (2015); published online 17 August 2015; corrected after print 28 August 2015

In the original version of this Article, a sentence was changed in error during production. This sentence should have read 'To understand to what extent mTOR regulates the SASP, we analysed the secretome of senescent cells by mass spectrometry (MS; refs 24, 25).' There was a further typographical error in one instance of 'SASP components'. These errors have been corrected in all online versions of the Article.
