Nature Clim. Change **3**, 875–883 (2013); published online 15 September 2013; corrected after print 27 September 2013.

In the version of this Review Article originally published, on page 877, the mass balance of glaciers in the Karakoram region should have been $0.11 \pm 0.2 \text{ m yr}^{-1}$. On page 879, in the second paragraph of the 'Aerosols' section, the estimated value for the direct radiative forcing should have been $-1.0 \pm 0.34 \text{ W m}^{-2}$. These errors have now been corrected in the HTML and PDF versions of the Review Article.
