In Supplementary Table S3 of this Article, some of the genotype entries are incorrect, as follows:

For the SMR6280 strain, SMR4562  $\Delta$ araBAD567 [F' mhpA32miniTn7Kan(I-SceI cutsite)] should be SMR4562  $\Delta$ araBAD567  $\Delta$ attBc::P<sub>BAD</sub>I-SceI [F' mhpA32::miniTn7Kan(I-SceI cutsite)].

For the PJH813 strain, SMR4562  $\Delta$ mfd::FRTKanFRT should be SMR4562  $\Delta$ mfd::FRT.

For the PJH2023 strain, SMR4562  $\Delta$ attTn7::PN25tetOgam-gfpFRT  $\Delta$ zfd2509.2::PN25tetRFRT should be SMR4562  $\Delta$ attTn7::P<sub>N25tetOgam</sub>FRTcatFRT  $\Delta$ zfd2509.2::P<sub>N25tet</sub>RFRT.

For the PJH2443 strain, SMR4562  $\Delta$ attTn7::PN25tetOgam-gfpFRT  $\Delta$ rnhA::FRTKanFRT  $\Delta$ zfd2509.2::PN25tetRFRT should be SMR4562  $\Delta$ attTn7::P<sub>N25tetOgam</sub>FRTcatFRT  $\Delta$ rnhA::FRTKanFRT  $\Delta$ zfd2509.2::P<sub>N25tet</sub>RFRT.
