

# Cushing's syndrome caused by an occult source: difficulties in diagnosis and management

Ashley B Grossman, Philip Kelly, Andrea Rockall, Satya Bhattacharya, Ann McNicol and Tara Balwick

*Nature Clinical Practice Endocrinology & Metabolism* (2006) **2**: 642–647 [doi:10.1038/ncpendmet0327]

doi:10.1038/ncpendmet0387

## CORRIGENDUM

In the November 2006 issue, the surname of

the final author was published as 'Balwick'. This should have appeared as 'Barwick'.

**Don't miss the following articles that will soon be appearing in the pages of *Nature Clinical Practice Endocrinology & Metabolism*:**

## VIEWPOINT

**Measure for measure—sugar or fats? Reconciling cardiovascular and diabetes risk with niacin therapy**

*Robert S Rosenson*

## PRACTICE POINTS

**What factors determine patient adherence to osteoporosis treatment regimens?**

*René Rizzoli*

**Is long-term glucocorticoid therapy associated with a high prevalence of asymptomatic vertebral fractures in postmenopausal women?**

*Robert S Weinstein*

## REVIEWS

**Pheochromocytoma: recommendations for clinical practice from the First International Symposium**

*Karel Pacak, Graeme Eisenhofer, Håkan Ahlman, Stefan R Bornstein, Anne-Paule Gimenez-Roqueplo, Ashley B Grossman, Noriko Kimura, Massimo Mannelli, Anne Marie McNicol and Arthur S Tischler*

**Drug Insight: mechanisms of action and therapeutic applications for agonists of peroxisome proliferative activated receptors**

*Philippe Gervois, Jean-Charles Fruchart and Bart Staels*

## CASE STUDY

**Recurring adrenal carcinoma after laparoscopic resection**

*Angelika Schlamp, Klaus Hallfeldt, Ullrich Mueller-Lisse, Thomas Pfluger and Martin Reincke*

**Please note that the title details are not finalized and might be subject to change.**
