Superior mesenteric vein thrombosis after colectomy in a patient with Crohn's disease

Andrew S Ross, Arunas Gasparaitis, Roger Hurst, Stephen B Hanauer and David T Rubin

Nature Clinical Practice Gastroenterology & Hepatology (2005) **2**: 281–285 [doi:10.1038/ncpgasthep0195]

doi:10.1038/ncpgasthep0285

ERRATUM

In the June 2005 issue, Figures 2 and 3 in the Case Study by Ross *et al.* were

incorrectly printed in black and white. The color figures are reproduced below with their original published legends.

Figure 2 Findings at initial exploratory laparotomy showing extreme venous congestion of the small intestine.

Figure 3 Representative histopathologic specimen from the resected small intestine revealing diffuse, severe mucosal necrosis.
