

A combination of intravesical BCG and electromotive mitomycin for high-risk superficial bladder cancer

Ashish M Kamat and Colin PN Dinney

Nature Clinical Practice Urology (2006) **3**: 472–473 [doi:10.1038/ncpuro0559]

doi:10.1038/ncpuro0646

In the September 2006 issue, the title of this Practice Point commentary was published as “A combination of intravesical and BCG electromotive mitomycin for high-risk

superficial bladder cancer”. This should have appeared as “A combination of intravesical BCG and electromotive mitomycin for high-risk superficial bladder cancer”.
