## Corrigendum: Cross-talk between imprinted loci in Prader-Willi syndrome

Adele Murrell

*Nat. Genet.* **46**, 528–530 (2014); published online 28 May 2014; corrected after print 13 June 2014

In the version of this article initially published, the following sentence on page 529 referred to an incorrect locus (in bold): “In mice, the lncRNA *Kcnq1ot1* associates with G9a and the polycomb repressive complex 2 (PRC2) to regulate the expression of other genes in the ***Dlk1-Dio3*** locus in *cis*.” The correct locus is *Kcnq1*. The error has been corrected in the HTML and PDF versions of the article.
