

Erratum: Integrating genotypic and expression data in a segregating mouse population to identify 5-lipoxygenase as a susceptibility gene for obesity and bone traits

M Mehrabian, H Allayee, J Stockton, P Y Lum, T A Drake, L W Castellani, M Suh, C Armour, S Edwards, J Lamb, A J Lusis & E E Schadt
Nat. Genet. **37**, 1224–1233 (2005).

The first sentence of the first paragraph in the Results section should begin, “In the BXD cross, female F₂ mice homozygous with respect to the DBA/2J (DBA) allele at the *Alox5* locus had higher fat mass...”. The fourth sentence in the legend to Figure 2 should begin, “Regions with five or more SNPs in a 25-kb interval were designated non-IBD between B6 and DBA...”.

Corrigendum: Disruption of Bardet-Biedl syndrome ciliary proteins perturbs planar cell polarity in vertebrates
