In the version of this article initially published, Equation 2 is incorrect. The correct equation is:

$$\frac{dL_z}{dt} = -L_z(L_z - L_\infty) + k_p P_z - k_L L_z$$

Additionally, peak 1 in Figure 1a is incorrectly defined in the figure legend. Peak 1 represents the natural abundance of $[2-^{13}\text{C}]$ pyruvate.

The errors have been corrected in the HTML and PDF versions of the article.
