Decrease in the AP-2 DNA-Binding Activity and in the Protein Expression of AP-2 a and AP-2 b in Frontal Cortex of Rats Treated with Lithium for 6 Weeks

Jagadeesh S Rao, Stanley I Rapoport and Francesca Bosetti

Neuropsychopharmacology (2018) **43**, 456; doi:10.1038/npp.2017.237

Retraction to: *Neuropsychopharmacology* (2005) **30**, 2006–2013; doi:10.1038/sj.npp.1300740; published online 13 April 2005

This article has been retracted by the editor because an investigation by the National Institutes of Health concluded

that the data represented by Figures 1c, 4a and b were falsified. The authors SIR and FB agree with this retraction. The author JSR could not be reached for comment.
