The DREAM complex: master coordinator of cell cycle-dependent gene expression

Subhashini Sadasivam and James A. DeCaprio

Nature Reviews Cancer **13**, 585–595 (2013)

On page 593 of this Opinion article, a citation to a key reference (Flowers, S., Beck, G. R. Jr & Moran, E. Tissue-specific gene targeting by the multiprotein mammalian DREAM complex. *J. Biol. Chem.* **286**, 27867–27871 (2011)) was not included. This reference should have been cited at the end of the following sentence: "Perhaps isolation of the DREAM and the BMYB–MuvB complexes from distinct mammalian tissues will reveal functions in addition to cell cycle control^{130,131}". This has now been corrected online.
